IMPORTANT NOTICE

PRIOR TO ISSUANCE OF REGISTRATION, A WRITTEN EXAMINATION MUST BE COMPLETED AND A MINIMUM SCORE OF 75% IS REQUIRED BEFORE REGISTRATION WILL BE GRANTED.

It is understood and agreed that when registration is granted by the "Inspection Authority", it shall remain in force until suspended by the "Inspection Authority", for violation of state laws governing LP Gases, or at the request of the registrant at the cessation of business for which registration was granted. At such time registration is suspended or terminated the certificate of registration shall be returned to the "Inspection Authority".

This application must be completed in its entirety before consideration will be granted, documentation must be provided for all training.

TYPE OF REGISTRATION REQUESTED

(A Class I Registration will allow the registrant to engage in Class II, Class III, Class IV, Class V, Class VI, Class VII, Class VIII and Class XI operations)

☐ **Class I General LP gas operation.**

The storage, sale, transportation and distribution of LP gas at retail-wholesale and the installation, service and repair of appliances, equipment and piping for use with LP gas. This does not include LP gas carburetion or liquid meter service or repair;

☐ **Class II Installer and service of low pressure systems.**

The installation, service and repair of appliances, equipment and piping for use with LP gas. This class applies to only the low pressure portion of the LP gas system downstream of the first stage regulator and those systems addressed in NFPA 54;

☐ **Class III Installer and service of high pressure systems.**

The installation, service and repair of piping and equipment for use with LP gas. This class applies to only the high pressure portion of the LP gas system upstream of the outlet of the first stage regulator and those systems addressed in NFPA 58;

☐ **Class IV Installer and service of high and low pressure.**

The installation, service and repair of appliances, equipment, tanks and piping for use with LP gas. This class applies to both high and low pressure portions of LP gas systems as addressed in NFPA 54 and NFPA 58;

☐ **Class V LP Service station operator (metered sales).**

The retail operation of an LP gas service station consisting of LP gas storage containers, piping, pumps and other pertinent equipment utilized to fill portable LP gas containers by weight;

☐ **Class VI LP gas dispenser operator (non-metered sales).**

The retail operation of an LP gas dispensing station consisting of an LP gas storage container(s), piping, pumps and other pertinent equipment utilized to fill portable LP gas containers by weight;

☐ **Class VII Cylinder exchange dealer.**

The operation of an LP gas cylinder exchange business whereby Department of Transportation (DOT) cylinders are stored in a secured cage or area and exchanged with customers (full cylinder for empty cylinder). This does not include the filling of any cylinder or tank on premises;

☐ **Class VIII Cylinder sales and service.**

An operation or business engaged in the filling, distribution and service of LP gas cylinders;

☐ **Class IX Carburetion.**

An operation or business engaged in the installation and services of LP gas carburetion systems;

☐ **Class X Liquid meter repair and service.**

The installation, repair and service of LP gas meters utilized for liquid LP gas deliveries, i.e., bobtail delivery truck meters;

☐ **Class XI Transporters.**

An operation engaged in the business of transporting LP gas.

I DECLARE UNDER THE PENALTY OF PERJURY THAT THIS INFORMATION CONTAINED IN THIS APPLICATION IS TRUE, COMPLETE AND CORRECT TO THE BEST OF MY KNOWLEDGE.
